

# USB-C to Dual HDMI with PD 8-in-1 Multitport Adapter

SKU: USBC-356-GL Available now

- Supports one 8K 30Hz display or 2x 4K 60Hz displays
- Power & Charge up to 140W
- Ultimate connectivity in compact design
- Thoughtful portable design

Video

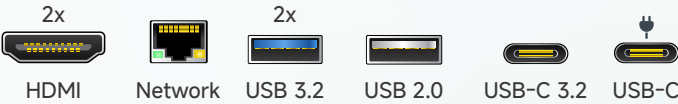

8K@30Hz

PD Charging

140W

Ethernet

1000Mbps

## Specifications

|                          |                  |                                                                |
|--------------------------|------------------|----------------------------------------------------------------|
| Connectors               | Host             | 1x USB-C                                                       |
|                          | Video Ports      | 2x HDMI Female                                                 |
|                          | USB-A Ports      | 2 x USB 3.2 and 1x USB 2.0 Type A Female                       |
|                          | USB-C Port       | 1x USB 3.2 Type C Female                                       |
|                          | Network          | RJ45 Female                                                    |
|                          | PD Port          | USB-C Power Delivery                                           |
|                          |                  |                                                                |
| Compatibility            | Host Support     | USB-C, Thunderbolt 3 / 4 / 5                                   |
|                          | OS Support       | OS Independent (some OS version only support a single display) |
| Performance              | Display Support  | Single: 8K @30Hz / 4K @120Hz; Dual: 2x 4K @60Hz Displays       |
|                          | Audio Support    | 32-Channel LPCM, Compressed Audio                              |
|                          | Ethernet Network | Up to 1000 Mbps                                                |
|                          | Network Features | MAC pass-through (MAC Cloning)                                 |
|                          | Power Delivery   | Up to 140 Watts                                                |
|                          | USB-A            | 2x USB 3.2 (10Gbps)<br>1x USB 2.0 (480Mbps)                    |
|                          | USB-C            | 1x USB-C 3.2 (10Gbps)                                          |
| Physical Characteristics | Available Length | 11.2 in. (285 mm)                                              |
|                          | Dimension        | 3.9 x 2.8 x 0.9 in (100 x 71 x 22 mm)                          |
|                          | Material         | ABS Housing                                                    |
| Country of Origin        |                  | Thailand                                                       |
